Fit-Reform went to the Coronation and brought home a shipload of novelties.

Fit-Reform saw the King, and the Dukes and Earls and Baronets. Fit-Reform saw them in their coronation robes—and also in their suits of Tweeds and Vocateds.

Fit-Reform saw the styles as worn by the "first gentlemen" of Europe-and brought back exclusive ideas and patterns that have been incorporated into Overcoats.

Stop in and see the new fall Styles as perfected by Fit-Reform.

WORKING TO KEEP YOUNG

The Ontario **Business College**

BELLEVILLE, ONT.

Canada's Greatest Business College

The commercial field offers far greater and surer opportunities The commercial field offers far greater and surer opportunities for success in life than any profession. The professions are so crowded that many professional men have difficulty in earning a livince. In contrast with this condition the demand-by business men and manufacturers in all pairs of Canada for well trained, industrious young men and women as bookkeepers and at enorgraphers, many of whom, beginning in this way, will by and by become employers themselves, is never fully met, and it is greater now than ever before. Every young man nnd woman should have a thorough commercial training such as is given at the Ontario Business College of Belleville, Ontario.

This famous institution is now in its 44th year, and for 34 years Mr. J. W. Johnson, P.C.A., has been the principal. Each year students come to the O. B. C. from every province of Canada, from the United States, all the West India Islands and from British Guiana, South America.

BELLEVILLE, ONTARIO, FRIDAY, SEPTEMBER 8, 1911. Reciprocity by agreement is an obligation which Canada cannot repudiate without risk. It's safest to remain Free.

The United States would not share its 19th Century with us; why should we share our 20th Century with them?

IS HER OWN SOUL THAT

"Once That Soul is Pawned, for Any Consideration, Canada 3 P. M. DESPATCHES Must Inevitably Conform to the Commercial, Legal, Fi nancial Social, and Ethical Standard of the United BLACK HANDERS States," Says Rudyard Kipling

(Special Cable to The Montreal Star.)

LONDON, Eng., Sept. 7.-Mr. Rudyard Kipling sends the fol- Bomb Exploded in a Tene ing message to the Canadian people through The Montreal Star;

"Batemans, Burwash, Sussex, England, Sept. 6 "To the Editor of The Montreal Star:

"I do not understand how nine million people can enter into such arrangements as are proposed with ninety million strangers on an open frontier of four thousand miles, and at the same time preserve their national integrity.

"Ten to one is too heavy odds. No single Canadian would accept such odds in any private matter that was as vital to him person ally as this issue is to the nation.

"IT IS HER OWN SOUL THAT CANADA RISKS TO-DAY Once that soul is pawned for any consideration, Canada must inevit ably conform to the commercial, legal, financial, social and ethical standards which will be imposed upon her by the sheer admitted weight of the United States.

"She might, for example, be compelled later on to admit reciprocity in the murder rate of the United States, which at present, I be lieve, is something over one hundred and fifty per million per annum

"If these proposals had been made a generation ago, or if the ninion were to-day poor, depressed, and without hope, one would perhaps understand their being discussed; but Canada is none of these things. She is a nation, and, as the lives of nations are reckoned, will ere long be among the great nations.
"Why, then, when she has made herself what she is, should she

throw the enormous gifts of her inheritance and her future into the hands of a people, who, by their haste and waste, have so dissipated their own resources that even before national middle age they are driven to seek virgin fields for cheaper food and living

Whatever the United States may gain, and I presume that the United States proposals are not wholly altruistic. I see nothing for Canada in reciprocity except a little ready money which she does n need, and a very long repentance.

A Clothing Question and Its Far Reaching Answer

What is the difference between custom tailoring and Fit-Reform garments? Nothing but imagination and a higher cost.

Custom tailoring has not advanced a step in a generation. Ask your father-or look at some of his old clothes,

Fit-Reform Suits and Overcoats do not leave a single advantage with the custom tailor. Only—the designing, cutting and tailoring of one suit at a time, costs practically twice as much and adds nothing to the suit.

If you have been paying \$35 or \$40 to a tailor, we can put you in a Fit-Reform Suit at \$25 or \$50 that will be a revelation of the

perfection of Fit-Reform methods. It's all right to stick to an old superstition when money comes freely. But a man should investigate the facts when he has no

Canada's Greatest Business College

The commercial field offers far greater and surer opportunities for success in life than any profession. The professions are so crowded that many professional wen have difficulty in earning a binder of the contest with the contest of the contest living. In contrast with this condition the demand by business men and manufacturers in all parts of Canada for well trained industrious young men and women as bookkeepers and stenograph-ers, many of whom, beginning in this way, will by and by become employers themselves, is never fully met, and it is greater now than ever before. Every young man and woman should have a thorough counterial training such as is given at the Ontario Business College of Belleville, Ontario.

This famous institution is now in its 44th year, and for 34 years Mr. J. W. Johnson, F.C.A., has been the principal. Each year students come to the O. B. C. Irom every province of Canada, from the Un'ted States, all the West India Islands and from

Tell your grocer you are in a hurry to try PURITY Flour. He will supply you promptly.

Canada's Greatest Business College

The commercial field offers far greater and surer opportunities The commercial nell oners are greater and surer opportunities for success in life than any profession. The professions are so crowded that many professional men have difficulty in earning a livinc. In contrast with this condition the demand by business men and manufacturers in all parts of Canada for well trained, inmen and manufacturers in all parts of canada for wen termined, in-dustrious-young men and women as bookkeepers and stenograph-ers, many of whom, beginning in this way, will by and by become employers themselves, is never fully met, and it is greater now than ever before. Beery young man and woman should have a thorough commercial training such as is given at the Ontario Business College of Belleville, Ontario.

The Ontario **Business College**

BELLEVILLE, ONT.

Canada's Greatest Business College

The commercial field offers far greater and surer opportunities for success in life than any profession. The professions are so crowded that many professional men have difficulty in earning a living. In contrast with this condition the demand by business men and manufacturers in all parts of Canada for well trained, industrious young men and women as bookkeepers and stenographers, many of whom, beginning in this way, will by and by become ers, many or whom, organning in this way, win by and by become employers themselves, is never fully met, and it is greater now than ever before. Beery young man and woman should have a thorough commercial training such as is given at the Ontario Business College of Belleville, Ontario.

This famous institution is now in its 44th year, and for 34 years Mr. J. W. Johnson, F.C.A., has been the principal. Each year students come to the O. B. C. from every province of Canada, from the United States, all the West India Islands and from British Guiana, South America

Falling in argument and in justifying the maladministration of ablic affairs during the past fifteen years. Sir Wilfrid Laurier and his public, aftairs during the past fitteen years, bir Willfiel Laurier and his persupparer organs are constantly larging upon virth they term an "hubbol salinates" between the forces led by Mr. Henry Bourssas, and the Conservative party led by Mr. Floriera, against the Government, and that they, so they say, find it difficult "to stand against the unhole allowed the salination of French Nationalists and English-speaking jingoes" who are gloding their best to destroy the influence of Laurier in Quebec. "That is, the Conservative party led by Mr. Borden against the dovernment, is and that they, so they say, find it difficult "to stand against the unbelow and the state of the stand against the unbelow and the state of the standard against the unbelow and the standard against the unbelow of the standard against the standard against the unbelow of the standard against against the standard a as the sun is from the earth.

as the sun is from the earth.

Do not let it be forgotten that Sir Wilfrid was the first statesman in Canada who raised the standard of "Nationalism" when he beastingly declared that he went to bed a plain colonist and awoke the next ingly declared that he went to bed a plain colonist and awoke the next morning and found Causaha "nation." If Bourssas has drank only his boast and become drunk with Nationalistic hieas, Sir Wilfrid has but himself to blame. He sowed the wind and is now reaping the whirlyind, and should not falsely accuse Conservatives of horizon for tered into an alliance with citter Bourssas or himself, for heir gen-tered into an alliance with citter Bourssas or himself, for heir gentered into an aliance with rither Boursass or himself, for they are facred with the same sities, not only upon Nationalium, but also upon the many question. Whether the same sities are not provided by the same sities in a face of Boursass, for Wildin, with he 's lay dream of looks as the same site of the same s liament denounce this policy as worse than absurd-unpatriotic, if not

What is the position of Roumers and his followers upon this guest What is the position of Boursess and his followers upon this quee tion? He declares, like Laurier, that Canada should not become in volved in any European war in which England would be engaged therefore the spending of millions of money in an attempt to establish a navy in Canada which would, in case of an attack by any foreign wer, be about as effective in defending the Laurier "nation" as a fler

rer, be about as effective in defending the Laurier "nation" as a file s would be upon an elephant, and therefore mere extravagance. There has not been during this contest, so far as Bourassa's utter ances are concerned, any declaration in favor of a separation from the mother land. On the contrary, he culogized the Union Jack and boasted of the freedom which it guarantees his countrymen, both civilly and religiously. This declaration was not only saccred at by Lemicux, the Minister of Marino and Fisheries, but denounced as a "Judas ries." Sir Wilfrid says Canada should not be involved in any Euro

Which is the most legical position." Our radicate can masser, with the exception of Mr. Monk, how, until this question of a navy arose and the exposition of the contraction between the notice contract and the outlying per of the contraction between the notice contracts and the outlying per such as the contraction between the notice contracts and the outlying per such as the contraction of tions of the Empire, hence no alliance, holy or unholy, can exist be tween either of these parties; but that is no reason why all who are apposed to the iniquitous scheme now before the people should not 'sprosed to the iniquitous scheme now before the people should not unite in defenting it, and turning out of power a set of pige, who pledg-ed the country to its enactment without consulting the people, and whose record is stained with crimes, as declared by Mr. Borden, would, if committed by other than Ministers and members of Parlia-

In a nutshell the electors have to decide by their votes on the 21st inst. which of these policies they approve: Bourgasa's, which is no navy, no assistance to England in case of war, and no reciprocity; Sir Wilfrid's \$10,000,000 navy, no assistance to Great Britain in case of war, Independence when Canada is ripe enough to fall from the par-ent stem, and the enacting of the present reciprocity pact; or the party led by Mr. Borden, with British connection emblazoned upon his banipport Britain in any conflict in which she may at any time bener, support Britain in any conflict in xelich she may at any time be-come engaged, and ne reciprocity pact, which opens our markets to 90,000,000 of people, thereby injuring those engaged in farming and ruining the manufacturing industries of the country. This theorem; in colling own with a pour ministerial cities.

Referring to the committee of the Mail and Empire bodding Mr. Richling responsible for granting the certificate necessary under the law to enable the bank to open its down; if April.

"The cluster was granted in the must very by the Parlisment of Canada. The charter had to pass the Banking and Commerce Committee of both Houses. Mr. E. B. Goller, Mr. David Henderson, Mr. R. I. Borden and Hon. Geo. E. Poster were membered of that Binking and Comistrue Committee. No exception was taken to the charter or to any person in connection with the bank."

When The Globe's editor penned the above paragraph he knew that the granting of a chatter incorporating a bank has nothing what-over to do with the granting of a certificate to enable the bank to do business. He also knew that Messrs. Osler, Henderson, Borden and Foster, members of the Banking Committee, had nothing to do with

manner in which money was secured to make the deposit required by law, informed the Finance Minister that the bank was a fraud, and that under the circumstances no certificate should be granted. No attenunder the circumstances no certificate should be granted. No atten-tion was paid to these complaints in the way of an investigation. The certificate was granted, the bank went into operation, and the unfortu-nate shareholders and deposition but all, many of them every cent they had to live upon in their old age.

The question has been repeatedly asked why the information given

by Messrs. Osler and Henderson was not heeded? A truthful answer probably would be, these gentlemen were Conservatives, and therefore treated with contempt, no matter, though hundreds might suffer. The Globe's attempt to throw the responsibility upon the members of the Banking Committee of either the Senate or Commons was intentionally deceptive, but characteristic of The Globe and its reverend editor.

Campaign Lies

The Toronto Globe heads one of its editorial articles "Campaign Lies." Here is one of them:

The Hon, Geo. P. Srnham delivered a speech in facer or reciprocity in Brockville a few days ago. He declared that al who are opposing the agreement were either connected with monopolies in some way or were paid by them to speak against it.

The Hon. George had no authority to make such a sweeping state

That politicians of the Currie and Sinetur statup schoula acep repeating it, is not surprising, as some politicians either do not under at and the English lauguage or willully pervert it.

After referring to Messen: Northrup and Monk, a voice in the audi ence asked, "What about Greenshields?". The reply was:

"I saw that he was another prominent Jaberal" who had recanted," said Mr. Fisher sneeringly. "Plut I remember a conspiracy entered into by some Montreal people in 1904—". But this was greefed with a storm of hisses and uproar which prevented the uninster from going on.

What this "conspiracy" was he did not inform, his question having been silenced by "hisses." There was a time when Fisher be ed the knee to Greenshields and courted his support. Now the du farmer sheers "at him: He will get his reward.

Canada's Greatest Business College

The commercial field offers far greater and surer opportunities for success in life than any profession. The professions are so crowded that many professional men have difficulty in earning a life. It contrast with this condition the demand by business man manufacturers in all parts of Canada for well trained, instant of the profession of the profession and manufacturers in all parts of Canada for well trained, instance, in the profession of the profession and manufacturers in all parts of Canada for well trained, instance, and the profession and manufacturers in the profession. dustrious young men and women as bookkeepers and stenographers, many of whom, beginning in this way, will by and by become employers themselves, is never fully met, and it is greater now than ever before. Every young man and woman should have a thorough commercial training such as is given at the Ontario Business College of Belleville, Ontario.

This famous institution is now in its 44th year, and for 34 years Mr. J. W. Johnson, F.C.A., has been the principal. Each year students come to the O. B. C. from every province of Canada, from the United States, all the West India Islands and from British Guiana, South America.

HERE was a time when Canadians, beginning with the honofable gentleman himself, would have given many things to obtain the American market there was a time not long ago when the market of the great cities of the Union was the only market we had for any of our products. But, THANK HEAVEN! those days are past and over now. We are not dependent upon the American Market as we were at one time. Our system of cold storage has given us a market in England which we had not before.".-From a speech of SIR WILFRID LAURIER in the House of Commons on March 21st, 1899. See Hansard, page 202.

The Canada You Will Never See

Once you have used

you will readily pay the little more it may cost.

Until you have actually tried PURITY FLOUR you may demur at the trille more it costs you than lower grade flours cost—but your first sack will show you why that seemingly higher price is a real economy for you

That trial sack (which you ought to order-this very day) will teach you what Purity Flour is worth to you, as contrasted with an ordinary flour.

PURITY FLOUR is milled from only the kernels of the choicest Manitoba hard wheat—the world's wheat standard.

From the 84 grain elevators which we own and operate, we select the finest wheat of the year's crop. This, at our mills, is so treated that only the most richly-nourish-ing part of the wheat berry gets into a PURITY sack or a PURITY barrel.

The result is a flour so strong that it pro-duces more bread for the quantity used than ordinary flour

But bulk of product is not all you are to expect of PURITY FLOUR. You are to expect lighter, snowier bread; bread that

has the mutlike, sweet, wholesome taste every housewife tries to put into the bread she bakes,

PURITY FLOUR, moreover, is not mere-by a bread flour. It is an every-purpose flour. It makes the kind of partry you can be proud of—cake that invites praise— bisenits that suggest an encore.

Not only is PURITY the flour for econ-omy's take, you see, but the flour for quality baking. Thus, the few extra cents which it may cost you actually insures you against baking disappointments. PURITY FLOUR is the flour you will never be without, once you fully test its musual merit. usual merits

Begin with a small trial sack, if you are dubious. Your grocer can supply you. "More bread and better bread"

by the Grit party against Mr. Northrup in East Hastings.

The old bribery "machine," refitted and its wheels greased lots of money," which probably comes from the Yankee trusts, has again been operating along the well-worn tracks made by the old whit so, but is now operated by men who are strangers in this part the country and are believed to be Yankees.

It is a repetition of the "mysterious stranger" rescality which was practiced in Lennox several years ago, but not so long since that recollection of the facts is not fresh in the minds of our readers.

Here is proof positive of the statement above made:

At milking time on Sunday night two strangers drove up rell-known farmer's on the front of Thurlow and made an excuse fo entering into conversation with him. They had evidently been "post id," for they spoke to the yeoman about some of his relatives and fir ally asked him how he was going to vote.

"Against reciprocity," was the answer. "Would money be any inducement?" asked one of the bribers producing a large roll of bills.

"No," was the emphatic reply, on which the Grit pu took their departure.

About midnight they arrived at Shannonville and made to-house "dark lantern" canvass. On the night when Mr. Clark held his meeting at Stoco the hotel an a free bar.

These rascals were last week shadowed in their operations n Milltown and can be identified.

JUDGE FOR YOURSELF

How many times have you had the old, old tale told you in regard to investments. "Yes sir, you are bound to make money," or "These lots will rise rapidly in value," or again "It's absolutely impossible for you to lose,"

you know very well that a good salesman can always sell a coor proposition. He is usually a highly paid man, and a man who excels in his line; he has taking ways, great personal m, is a fluent and convincing talker, and, though you may not know it, has answers prepared beforehand for every objection you may make, and [consequently very often is able to sell to a person against their better judgment. He tells you all the things I have stated above, but does he ever say to you-

Our Company Will Refund You Your Money on Demand, Plus 6 Per Cent. if You are Dissatisfied

In other words, does his Company ever give you Agreement in black and white backing up his statements when he promises you that, you will make money? Have you ever in all your extience known of a company who absolutely guaranteed you against any loss, who have

you will make money? have you ever in an your extense alound a company who absolutely guaranteed you against any loss, who have offered when they were selling you properly to give in an agreement to refund your money on demand plus 6 per cent. interest? The proposition I am now putting before the public is THE T.K. OF THE TOWN.

In the first place I am offering the most stupelous bargain to the public that has been put on the market. It is something brand new in the shape of a proposition, not only brand sw in this province, but brand new in the history of real estate, and I do not intend to be backward in letting the public know about it thresh the medium of the press, because the terms on which I am selling these lots are the most remarkable, unheard-of, safest, fairest lest and most generous that have ever been put before the investing public.

The property is 2 1.2 miles from the C. P.R. depot; 3.4 miles are to be laid down tonce. Richmond Park is on a hill overlooking all the city and will be the fin residential district in Moose Jaw.

Prices and Sizes of Lots

The prices are \$90 and \$100 for lots 25 by 125; \$200 \$225 and \$250 for lots of 50 by 125. Each lot runs to a lane, is perfectly high and dry and fit for building.

Special and Extraordinary Terms

Torrens title, no interest, taxes paid to 1913, no payments to make if ever you are sick or out of work, even though this may be for six months, then when you are sick or out of work, everythough this may be for six months, then when you have been working 30 days, start your usual payments again by making one payment. Think what this means when the winter comes on. Your money refunded plus 6 per cent. If you so wish. This guarantees you against any possible loss. A clear title at once given to your wide monet of kin should you die before you have completed your payments, even they have completed your payments, even they are not your purchase. Now, sum these facts up. You make a huge profit, for this refund to the choicest pieces of property in the whole city. These lots will sell for from \$750 to \$1,000 within a very few months. Three lots given free to the first person erecting a \$4,000 house and two lots to the second builder.

and St. Paul.

Don't heaitate. The man who hattes in these days is lost. the times are so progressive that you cannot Alford to think too long about it. Guess I hear that dear, sweet old cry of the very wise old owl sing, "What a lot of hot air." All right my bird of sombre plumage, take the trouble to examine the situation for yourself; makes why, then, you are sure entitled to yourputation of being a very wise old bird, and you can say what you like about me. It is always a good things that are being offered befolying, and I want to impress this on you and get you to do so because out will find my day duping to investigate all the don't delay, get in right now, you can't lose and it is a lead pipe cinch and as sure as night follows day, that you will made commons profiles from these.

Country Before Party

With an emphasis which cannot possibly be mistaken, 'he people of Canada' pronounced in yesterday's election that they place COUNTRY BEFORE PARTY.

In rejecting the reciprocity project which was submitted for their approval by the Laurier Government, the Canadisar alegeons have re-buked the President of the United States for declaring his belief that they were to be made his instruments for commencing the commercial toty were to be made his instruments for commencing the context via diamentarisms of the Empire and that they would permit his posted report these production of the arrows of pully would. They highest the loyers of the continguishing of the United Histonic whose, dashie, veryity held by the green importing of these and openly aspreased by many, was that the party would gover the first step forward amenation.

nneation: They growed conclusively to Mr. Janus J. Till, a Canadian-America, milway misgrate and boson friend of Prejident Tatl, this when on project over the passage by the U.S. Compare of the projectory signaturant it was not so much what it gained for this adopted country what it proves the property with it is not on the control of the dependent of the depen

Globe a Nationalist

If it were possible for any one to be surprised at anything The Toronto Globe says or does, the expoure of its "Liberaliam" at Sedbury by Mr. Bourssas might possibly lead to the conclusion that tagiterance might occasionally be board upon truth, that is if sayshing were to be paired by rutering the truth.

The Globe's report of Mr. Bourssas's speech at Sudbury contains the following:—

T tell you this, in the presence of The Obbe, from which explanation is surely due, that fave or six years of the set is Booth Affains war, when I had publishy stated and placed on record my opposition to the seeding of a Clean war when the contract of the seeding of a Clean war was to be seeding of the contract of t

This is just what might be expected from a Globe editor. The Globe's attitudy towards the South African war was clearly in second with Boursasa's, and it defended Laurier when he fold a Globe reporter he would not send a contingent to fight the Boers.

Bourseas's Nationalism, which he approved then as editor of the Globe, he now condemns as the utterance of a traitor. It is well he left the church if his theology was of a like character to that of his politics.

CONTRARY to all precedent, but rightly, the voters themselves paid for these Five Million votes.

Each man, by laying down \$5.00 or upwards, woted his approval of the shaving system developed and perfected by King C. Gillette, and declared his intention of following this system with the Gillette Safety Razor which he received in exchange for his cash.

The principles of personal clean-liness and comfort, made possible by the quick, efficient little Gillette Safety Razón, wen fart laid down by King C. Gillette in 1904. When the last General Elections were held, in 1908, over Two Million had subscribed to them. Since then they have been adopted and practised by Three Million more clear-headed voters—practical men whose time is worth money.

The Gillette Safety Razor has freed Gillette's constituents, the world over, from dependence on the barber-shop—has conserved their time—preserved their tempers—and, for them, has transformed shaving from an irksome task into a pleasant incident in the morning toilet.

Unnecessary trains can be cutoff, half the staff and at least one-third of the men, who have bee employed when votes were wanted at an election, could be dispense swith. These unnecessary expenditures have been principally the cau of the large deficit of hundreds of thousands of dollars annually.

Perfect Porridge in 15 Minutes

THURSDAY, SEPTEMBER 28, 1911

OME housewives don't believe it. That's because they have not tried Tillson's Rolled Oats. 7

> True, you can't do it with some rolled bats, which are so uneyenly rolled that they must be cooked all night to become digestible

But you can doit with Tillson's.

Tillson's Oats consist of perfect flakes rolled to a filmy thinness. Every flake is whole, unbroken and of unform size. The meal or flour is retained in the flake instead of being spilled out. 15 minutes on the stove cooks them through and through.

And the aroma and appetrzing appearance of the porridge made from Tillson's far surpass those of any other porridge you ever ate. Try Tillson's tomorrow.

Save Money on Your Millinery

It is an established fact that nowhere in this city is it possible to buy high grade Millinery at our prices. The reason is very simple, we import direct from the leading manufacturers and pay spot cash,

thus saving all middlemen's profits and many cash discounts which savings we turn over to our patrons.

In addition to our low prices we carry a very large assortment of newest styles, (with no two alike) so that there is practically no difficulty in satisfying individual tastes. For home milliners we have a splendid stock of fashionable shapes as well as millinery trimmings of all kinds-velvets, silks, ribbons, ornaments, feathers, plumes, etc. etc., at most moderate prices,

Feel free to visit our Millinery Department at any time, you will always find something new to interest you.

Until you have actually tried PURITY FLOUR you may demur at the trifle more it costs you than lower grade flours cost-but your first sack will show you why that seemingly higher price is a real economy for you

That trial sack (which you ought to order this very day) will teach you what Purity Flour is worth to you, as contrasted with an ordinary flour.

PURITY FLOUR is milled from only the Kernels of the choicest Manitoba hard wheat—the world's wheat standard.

From the 84 grain elevators which we own From the 34 grain elevators which we own and operate, we relect the finest wheat of the year's crop. This, at our mills, is so treated that only the most richly-nourish-ing part of the wheat betry gets into a PURITY sack or a PURITY barrel.

The result is a flour so strong that it pro-duces more bread for the quantity used than ordinary flour

But bulk of product is not all you are to expect of PURITY FLOUR. You are to expect lighter, showler bread; bread that

has the nutlike, sweet, wholes every housewife tries to put into the bread she bakes.

PURITY FLOUR, moreover, is not merely a bread flour. It is an every-purpose flour. It makes the kind of pastry you can be proud of —cake that invites praise—biscuits that suggest an encore.

Not only is PURITY the flour for even-omy's sake, you see, but the flour for quality baking. Thus, the few extra cents which it may cost you for extra cents which it may cost you feel profitments. You against Saking dispositioned as PURITY FLOUR is the dury you will never be without, once you' fully test its unusual merits.

Begin with a small trial sack, if you are dubious. Your grocer can supply
